How. A large assemblage were gathered at Odd Follows' Hall last hight, in accordance with extensive adversible, to wilmost the "physical manifestations" of Mr. C. H. Read, who has been operating several days age this city, under pretended spiritual influences, but very superficial. Mr. Davis, Mr. Price, a naval efficer and a utilitary officer were appointed a committee to inspect the operations and make the fastenings.

Read was tied as on previous occasions, but, from being excited and nervous, be did not perform his feats as successfully as heresofore. After he was though with his performances Mr. Geines was called for, and, after some remarks by different goutemen in the audiance, he consented to be tied by the same committee and in a similar manner as was Read, and performed several of his tricks as skillfully, to the great satisfaction of the audience, who chered hardly.

After some Ively and boisterous exhibi-

faction of the audience, who cherred hearily.

After some lively and bolsterons exhibitions by the audience, mostly mirthful, but some rather indignant, Mr. Green get upon the platform and proposed a resolution that the great humbunggue be expelled from this community, which was passed with a rounding affirmative rote, and with few noce.

Then Read was called for, but was not forthcoming. Thus was ended the seame humbung for which people path their money, and they got what they just for in full measures; and if some of them were not as alledly humbinged as they expected to be, they were foolish to get mad and too cumphatically manifest their dissourative.

The used for stam communication, the facility of the country, and the mobility of the country of

Communicated. 1
Stavin and Flood Signals by Means
of the Tategraph and Caumen.
Mainly for the Bassell of Agriculture and Commerce—To be Tested
as Farts and Military Stations.
It is estimated that wore than one fourth
of the bay and grain crops are, on an average, injured anunally by storms during haryest. Large quantities are cut down, and
then a sterm comes on suidenty or at a setvest. Large quantities are cut down, and then a storm comes on smidenly or an act-ted rain, and they get wet to a degree that they are materially damaged. If farmers had warning of these approaching storms to time to get their grain or hay under cover, Tis a situation to shut out the rain, much of this injury would be prevented. By the adoption of the following simple plan, it is believed that this can be effected at a trifling

When a storm has formed and communices to travel in any certain direction the first telegraph station or stations over which it passes is to send the unwasto all the telegraph stations at either, county-scate, and principal tower, scores or a bundered miles in advance, according to the kind of storm or produbite distance that it may travel, always keeping a suitable distance in advance.

in advance, according to the kind of storm or produbite distance that it may travely, always keeping a suitable distance in advance.

At each city, county-seat and principal town a camon is to be kept ready by the officials at the court-house, or by a fire courage, and a soon as the news a received of a coming storm, it is to be fired three thomas, intervals of one minute if a tormade, thunder or hall storm, terrific gale or destructive storm is approaching; at intervals of three minutes if an ordinary rain storm is approaching approaching; at intervals of six minutes if an ordinary rain storm is approaching splody; and at intervals of six minutes if an ordinary rain storm is approaching. In case of very destructive storm is approaching, in case of very destructive storm is approaching. In case of very destructive storm is approaching, for each church beits many also be rung, and steam whisties be blown three times, at the same interval as the gans, to increase the warulog.

As a good-sized cannon can usually be beard from 15 to 20 miles in every direction from the place of firing, or over a space of from 20 to 40 miles a quare, (1.02) square miles, by fring one at each county seat and principal town, the farmers over the whole ecustry, is harvest time, will be warsed to stop cutting, and to get their grain or hay moder over, or in a situation to shut out the rain, thus saving not only that pertion to the warning, but also saving that portion which adherise would have been cut during several hours or a whole day without with warning.

The etorm signals will also be of great value to commerce on our extended custes and lo narrow channels, and particularly or prepare for the cooling storm. Terrific storms and married several for value to every business city or reconstry.

The signals used for storms when located at view towns may also be used to give a vast atomust

ownery.

The signals used for storms when located.

where times expering and rain, and it not not will be of value to every business city or country.

The signals used for storms when located at river towns may also be used to give warning of destructive river flosids. By firing a cannon at the principal towns on a river a coming flood may be signalled throughbut its entire length several hours in advance, by which many lives and large amounts of property will be saved. Even as boar's warning will often be of great value when the river rises unddenly and rius with destructive rapidity and force.

This plan has been approved of by the Western Union Teingraph Company, which out the Union Teingraph Company, which out the Union tand is order to test the system will supply tolegrams of approaching storms, "shenover lu very considerable number of clies and towns shall make arrangements for signal guess according to the plan proposed." The plan has also been speroved of by many of the mest proudment to stresslend guess according to the plan proposed. "We believe the troubert idea of giving warning to distant localities of the approach of storms by means or recently had this following: "We believe the troubert idea of giving warning to distant localities of the approach of storms by means of the engineering that the storm of the province of the approach of storms by means of the engineering that the storm of the province of the approaching to the storm of the province of the approaching to the storm of the approaching storms by means to the very practical and promising. This system would save croper result desired on rivers, lakes, lays, and much sacrifice of human tile."

Through a recent act of Congress to extablish storm signals at military stations had not been entirely eity and town authorities the street of the saving of the approaching the storm of the approaching the storm of the saving of the saving of the and to entire the saving of

THE OHIO REPUBLICANS.-The Ohio Re rus vano Ruspulleans.—The Ohlo Re-publican Association held a fusintss meet-ing last hight at the Columbia College Law Building on Fills street J. B. Will in the chair, and W. A. Hunt, secretary. After the reading of the minutes of the last meet-ing, and adjusting the duss and secounts, a discussion arose as to how many tickuts should be lessed to each member for the next sociable.

METHODIST SARBATH SCHOOL UNIOS.— The regular monthly gathering of the Meth-dist stabbath-school Union took place Mon-lay evening at the Foundry church, Rev. Dr. A. E. Gibson presiding; Mr. Warren

On motion of Mr. Ashley, speeches were limited to five minutes.

The question at first did not seem to provoke much discussion, and a motion for its adoption was about to be put whom Mr. Tilion, of the Foundry, opened the discussion, and it was carried on very profitably and earnestly by Messre. Smith, Harkmas, Davail, Stocking, Garnett, Estlack, Letonnan, (and one from Island and Foundry). The discussion showed that all were hearily in favor of the temperature cause, but Messre. Smith and Garnett srgned that, in their opinion, the societies held Sababath afternoons were not the proper means or times for the work, and that while iosableg. Christ to their classes it temperature. Others spoke of the great success of Sanday afternoon temperature meetings in their schools, and cited examples to prove the good they were dring.

The nevitous question teeting put to vote, it was adopted manimously.

The sec-mit quantion recommended by the board of managors was then taken up for discussion for the provestion of the control of the control of managors was then taken up for discussion for the purpose of interesting our sloter scholars.

Br. Globon stated the object of the nor-

discussion. It was that normal classes be cetabilished for the purpose of interesting our older scholars.

Dr. Gibson stated the object of the normal class was to prepare the older scholars for the office of teaching. He spoke of such a class with which he had been connected in another city, and the work it was theing. By the aid of tell and their in study and preparation on the part of the teachor, and faithfulness on the part of the scholars, this class was preparing teachers for the fabbath school work, who would wield a great lathunce. He spoke of the teachings of the normal class as being a grade higher and farther advanced than that of the Bible class in the fact that the control of the members, and while the discussion took a range a little outside of the original interior, it seemed to be very profitable. The discussion was participated in by Messr. Stocking, Choota, Terry and others.

Mr. Hartisck moved as a substitute that normal or fraining classes be formed in very separation to the substitute, that normal or fraining classes be formed in very separation the abstitute, it was unanimously adopted.

Mr. Blocking hoped the board of managers.

far as mettlemble, and after carnestly alvocating in the backinto, it was unanimously
adopted.

Mr. Blocking toped the board of managers
would stiggest some practical action whereby the Usion might be benefited flannicially
and otherwise. He would like to see some
plan proposed by which we, might become
the owners of some stereoption or some
kind of exhibition by which we could raise
funds which could be devoted to the purchase of many, charts, models and other
valuable appurtenance in Sabbath school
work. He, therefore, moved that the board
of managers be instructed to report some
plan at our maxt meeting by which this
could be carried into effect. He also spoke
of managers be instructed to report some
plan at our maxt meeting by which this
could be carried into effect. He also spoke
of the use of Sunday schools, where we
would not be under the control of rum selllog regulations; and, indeed, he favored the
idea of loquining into the feasibility of actifug a boat whose regulations were
free from these peruisions influence.
These suggestions seemed to meet with
great favor, and in order to have them carind into offort, Mr. Eastlack moved, as an
amendment, and It was chaminmaly
adopted, that the board of managers be instruct to appoint a sub-committed, who
should loquire into the feasibility of rending
or purchasing such grounds as would be
altable for exercisions, etc.

There being no further husiness the mesting adjourned.

I mg adjourned.

A meeting of the board of managers was called for Friday evening at 6 o'clock at the

and will be the anniversary.

A Disoudeman House Brocke Up.—On Monday slight the attention of Sergeant Vermon and come of the Fish precinct police was attracted by cries proceeding from a noted assignation house on Eleventh street, between E and F, kept by a young woman known as Nellie May. Going into the house the officers discovered the woman May and a butter merchant in the Northern market, who gave his same as Rabinson, but whose real name, the officers state, is Walker, maltreating a colored servant named Mattin Clark. These parties, with another named fulfills Leslie, were taken to the Central gnard-house, and arraigued before a satisfied Harper, where the woman and Robinson were fased \$5 each for disorderly conduct. May then preferred a charge of stanuit against these rant girt, which was promptly dismissed by the magistrate. As one good turn ceserves unother, Lieut, Skippon stude a charge against Nelly for keeping a bawdy-house. On a hearing of the class Justice Harper beld her to ball in the sum of \$300.

Mr. Robinson became her surety and she was dismissed. A DISORDERLY HOUSE BROXES UP.

Locat, Busyrrins.—Wm. Bird, colored, an employee of the Washington Navy Yard, was arrested by Officer Hamilton on the charge of stealing a quantity of brass from the yard. Fastles Senmidt torned fiird over to the United States marshal.

Wm. Newton, colored, for assaulting Thos. Hamilton, was fixed \$5 by Justice Schubit.

Dr. A. E. Otheon presiding: Mr. Warres
Choate, secretary.

After devotional exercises and reading of
the minutes, the roll was called, and the following schools answered: Foundry, Hamline, Wesley, Danbarton, Wesley Mission,
Trovidence and Union.

The president called the attention of the
members to the importance of holding a
mass-convention of the teachers, echolars
and friends of the schools some time prior to
the annual election of officers of bils society
Mr. Secociang sougesime the importance of
the darbath-school irrittate, and his
motion that the board of managers be
instructed to provide for the holding of such
at a time not later than the first week in
June was adopted.

The seciety thee took the first resolution
to commended by the board of managers,
viz: That temperance societies be organized
to a motion of Mr. Ashley, speeches were
limited to few minutes.

The question at first did not seem to procommended the managers, and a motion for its

John H. Evans, colored, was attracted by Officer Yanger on anapticion of burgary, and held for a hearing by Justice Wall.

A large beass key was found in front of police handquarters yesterday, which the owner can have upon application to Major Richards.

Joseph W. Morris, colored, was fund \$10 by Justice Pearson for keeping a dog without license.

Owen McQuade paid a fine of \$6, for permitting his goat to run at large.

Froi. Barber, colored, gave ball for coart for the larges of a coat belonging to Alex. Beldon.

Freil. Barber, colored, gave hall for court for the larcer, colored, gave hall for court for the larcer, of a coat belonging to Alex. Beldon.

Maria Hix and Marthu Hix, colored, for assentiting and beating David Coke, were each fined \$2 by Justice Drary.

Justice Andervon fined Timothy McCormick \$20 for selling liquor without license. He took an appeal.

Bruna Young, a mymph in pare, charged by Francis Judd with using profane and indecent language on the street, was fined \$1 and costs by Justice Cox.

Dr. R. S. L. Walsh has been appointed by the Alumi Association of the Mcdical Department, Georgetown College, as a deligate to the National Medical Borlety, which meets in this city in May next.

The tax list, as published in the Raruntcas yesterday morning, was the principal topic of conversation, and was engecty scanned by hundreds of deliaquents.

Jespy Edward Chenny, M. D., has been elected microscopist of the Medical Department of Howard University.

L. Z. Hoover, charged by Win. McCoskey with obtaining goods by false protences, is beld to ball for a further hearing.

Edward Harron was held to ball for court yesterday by Justice Thompson on the charge of assaulting Charles A. Kaudali. Bandail was fined \$8 for profane and indecent language.

PENNSTIVANIA SOCIABLE—The social demonstration made by the Pennsylvania

PENNSTIVANIA SOCIABLE.—The social

PENNSTIVANIA BOCIABLE.—The social demonstration made by the Pennsylvania sociaty on Monday evening, at Liberty Hall, was decidedly the largest that has been seen at any time before since the sociables have been brangurated. Indeed the another in attendance was so large that both halls were crowded, and it was atmost impossible to arrange the dances with any sort of order or satisfaction; but with a genuine spirit of accommodation and good humer on all sides, the Terptchoreau carrieces were carried through with much bilarity and evident pleasure.

The regular programme preceding the dance was a followed. How, Wilfullian delivered an entertaining and pleasing speech, Mr. John Ingle rang a song, with plano accompanisment, with fine expression, and erineing a well-cultivated voice, cliciting much appliance. This was followed by another song, which J. C. Mann excented with a tender, sympathelic voice and with rended taste. A recitation from Scott was well rendered by Judge Ofiphant, Mr. McMurray, of the Statisleta Burana, Trassury Department, performed a series of mathematical calculations with extraordinary rapidatry, much to the wonder of the company gradually dispersed.

Among these present were Scoator Scott, Hon. O. J. Dickery, Judge Middlebrook, Judeon S. Bows and larly, Dr. Parke and lady, Joseph M. Wilson, G. H. Saville, eq., of the Teneury Department, M. E. N. Howell and Lady, Judge of the Teneury Department, and others.

Tim alarm of fire a little after sine o'elock, on flaturday night last, was caused by the burning of a frame stable in Faystte alizy, butwom Water and Union strouts, belonging to the ustate of the late lasse Kell. A frame warehouse and shed adjoining, belonging to Mr. J. H. D. Simost, were also injured. A horse belonging to Tolson and Brother was kept in the stable, but it was rescued before it had sustained any lujury. The actual lose was small, and was covered by insurance. The fire it is stated was the work of an incendiary.

Tun tax sele case of Henry W. Bennett vs. Alexander Hunter—all the Judges coucring. By this docksion Mr. H. recovers the Abbington estate, situated between Alexander illuries—and valuable form in Virginia.

Tun triat of Reary Church for an outrage upon a little girl of this city, issued dockness. 1968, was seventy-five

the hargest, most profitable and valuable forms in Virginia.

The trial of Heary, Church for an outrage upon a little girl of this city, samed Josephene Brown, will come on at the term of the court of Fairfax county which commonded of attend.

The oncoupled frame building on the cast side of the Washington turspike, near the junction of that road with the Columbia turspike, belonging to an association of colored brickmakers of Washington city, was destroyed by fire early resterday murulag. Savenataunal jags of 6th arrived at Fabricown yesterday and to-day. They came in branches, however, and sold high. Among them were a few shad.

A COLORED woman, employed by Mr. William Phillips, at his dwelling-bones, on Cameron street, was yeaterday moroling discovered to have robled the gentlements wife of a \$50 note. She took the money from a poste-book which had been left under a pillow, supposing it was \$5 bill. CaptJohn L. Smith, of the night watch, and Police Officer Webster, worked the case up, and recovered usariy all the money.

A curno of Mr. James Allen, residing on South Books is rest. was very nearly attended.

and recovered nearly all the money.

A curn of Mr. James Allen, residing on South Royal street, was very nearly strangulated yesterday by an old coppercent, which accidentally slipped down its throat and stopped up its windpipe. The obstruction finally passed down the throat into the stomach.

The Alexandria Gusette of yesterday even-

ing says:

An unusual number of wild fowh have been killed in this neighborhood within the last few days. Cauvas backs sell as from \$10.0 \$2.00 per pair; red neeks at 75 tents to \$1 jer. pair; shufflers at from \$0 to \$0 cents per pair. But it is getting late in the season.

season.

Tus flah benches in market this morning had good suppties of white perch, yellow perch, pike, dec, with some rock, herring and a fow shad. We learn that good battle have been made of spring fish, at a few of the landings.

have been made of spring fish, at a few of the landings.

CHAS. A. AMUNDEL, Jr., has been appointed by Gov. Walker constable for the Second district in Fairtax county.
